Stress is a constant in our lives - such a constant that we actually don’t realize we are under stress, we think it’s "just part of life." Health surveys report that over 70% of people feel stress everyday. Some stress is helpful, but most stress is destructive; it can age you and it can kill you. The focus of this book is STRESS OUT, not Stressed-out. Stressed-out is a condition you may be experiencing; Stress Out is a solution; a command to tell stress who's the boss. This book provides quick tips, recommendations and techniques that you can use to assist you in having a more healthy relationship with stress.
